

Reporting Sewer Blockages:

If you are connected to the City Sewer Collection System and are experiencing slow drainage or a complete blockage, you should first call the City to check and/or flush our mains. In the event that it is a City main blockage, this will prevent you from having to call a plumber. If the City main is cleared and you still have a problem, you are then recommended to call your plumber.

To report sewer blockages during business hours (Mon-Fri, 9am-4pm), call City Hall at (530) 926-7510.

For [After Hours Emergencies](#) call the Police Department at (530) 926-7540.
